CURRENT RESIDENT OR

Since 1983 the Kandiyohi County Chapter has raised over \$7 million dollars for the PF mission. All proceeds from the banquet are controlled by the local Pheasants Forever Chapter. These locally raised and leveraged dollars are put to work in the community by the chapter. To date the chapter has :

- Helped create and support a PF Farm Bill Biologist position to work with landowners and producers in the county on voluntary conservation private land programs. Since July of 2017 this position has had 543 landowner contacts and impacted 21,656.66 acres in the County.
- Supported five local high school trap teams
- Provided youth education on habitat and gun safety
- Provided money for youth to be involved in pollinator projects
- Provided a scholarship to a senior interested in a conservation career
- Enhanced or restored over 2,200 acres on 23 existing public land complexes projects since 2015 in partnership with the Outdoor Heritage Fund
- Acquired 16 tracts in fee-title totaling 1,227 acres . The parcels are restored to wildlife habitat, protected in perpetuity, and are open for anyone to use and enjoy.
- Through a partnership with Conservation Partners Legacy Program, is restoring or enhancing over 530 acres of public land in Kandiyohi County

“The Kandiyohi Chapter of Pheasants Forever credits these impactful accomplishments to the support of the many PF volunteers, local businesses, members and non-members that attend the annual banquet and have generously given their time and money throughout the past 38 years” said Kevin Ochsendorf, president of the Kandiyohi County Pheasants Forever chapter. “Additionally, we are thankful for the past and present county commissioners, members of other local units of government, and agency partners who understand the importance of public and private land habitat and the conservation aspect for all individuals and wildlife that use it.”
